1.0 POLICY OBJECTIVE

The purpose of this policy is to provide clear guidelines to all school counselors at the Ministry of Education, Heritage & Arts (herein after referred to as MoEHA) schools and offices when applying interventions and proactive measures designed to support the social, emotional and behavioral well-being of students, teachers and school environment.

2.0 BACKGROUND

2.1 Introduction

2.1.1 The Ministry of Education has a total number of 731 Primary and 175 secondary schools. There are no established counseling positions in the Primary schools whereas out of the 175 secondary schools, there are only 29 established school counseling positions in large secondary schools. Besides this, there are four (4) Divisional Counselors based in each Division who are responsible to provide student services to all schools under their jurisdiction. Further to this, there are three (3) Counselors based at the National Substance Abuse and Advisory Council (NSAAC) office who also provide school and community based training and counseling services. There are also external counseling support services available to general public such as Empower Pacific, Lifeline Fiji and Medical Services Pacific. The Medical Services Pacific is also contracted by the Department of Social welfare which has a 24 hour Child Helpline Services to register and refer child protection concern/complains on abuse and neglect cases.

2.1.2 MoEHA recognizes that children may face a variety of difficulties and challenges whilst at school, which impact on the chances of success and progression. Students have the right to expect informed, impartial, supportive and timely guidance and counselling services organised by the MoEHA, that affects students’ studies and well-being. MoEHA is
committed to providing an effective counselling service, and developing it further to ensure it is accessible and meets the needs of all students whether concerning academic or disciplinary psychotherapy.

2.2 Rationale

2.2.1 The MoEHA is committed in supporting the social, spiritual, emotional and behavioral well-being of students. The Ministry appreciates and value each student's potential to learn and endeavor to provide an environment where students feel safe, respected and supported. School based counseling aims at enhancing learning by assisting students to acquire critical skills in the academic, career and personal/social aspects of student development. Counseling services supports a child's academic, personal and social development which in turn leads to decreased disciplinary issues. School Counselors are bound to use a variety of prevention and intervention models to assist students in overcoming barriers to learning, to make strong connections with educational opportunities in the school, and to ensure that children learn in a safe, healthy and supportive environment. The School Counsellor is in a strategic position to support school improvement initiatives and to be active in advocating and being proactive for better outcomes for all students.

2.2.2 Counseling needs to be an early intervention strategy to prevent deterioration in emotional wellbeing, behavior and attitude. It can enhance a student's self-esteem and ability to cope more effectively in school. Students can be affected from issues relating either to home or school atmosphere. Issues relating to home may include:
   a) Abuse and negligence
   b) Lack of family support
   c) Irregular attendance
   d) Child labour
Issues relating to school may include:

a) Bullying
b) Social and behavioral difficulties
c) Emotional problems
d) School refusal/phobia
e) Truancy
f) Academic difficulties, for example significant under performance
